H1 2024 key figures

Net Revenues New Yachts¹ / (€m)

EBITDA / (€m and % on Net Revenues New Yachts)

EBIT / (€m and % on Net Revenues New Yachts)

Group net profit / (€m and % on Net Revenues New Yachts)

Organic Investments² / (€m and % on Net Revenues New Yachts)

Net financial position³ / (€m)

1. Calculated as the sum of revenues from contracts with customers relating to new yachts (recognised over time with the cost-to-cost method) net of commissions. In accordance with IFRS standards, revenue calculation includes the difference between the value contractually attributed to the pre-owned boats traded in and their relative fair value
2. Increases in property, plant and equipment and intangible assets with a finite useful life, net of the carrying amount of related disposals, without considering changes in consolidation perimeter. Total investments in H1 2024 equal to €33.1m, including €12.6m from Simpson Marine Group fixed assets acquisition
3. Calculated in accordance with ESMA document 32-382-1138, 4 March 2021. A positive figure indicates a net cash position. IFRS 16 liabilities accounting for €13.4m as of 30 June 2024 and €9.9m as of 30 June 2023

Revenues growth continues as planned

H1 2024 Net Revenues New Yachts at €415m, +6.9% YoY

- Outstanding YoY performance for the Superyacht Division (+17.6%) and Bluegame Division (+13.1%) while the Yacht Division recorded a substantially stable result (+1.0%)
- Americas rebound (+9.2%) is a very positive signal. APAC (+20.9%) proving dynamic except for Greater China, while MEA (+142.0%) keeps growing naturally at a sustained pace. Europe (-9.9%) overall stable, with a tough comparison basis with H1 2023

Breakdown by division

Breakdown by geography

Net Revenues New Yachts are calculated as the sum of revenues from contracts with customers relating to new yachts (recognised over time with the cost-to-cost method) net of commissions. In accordance with IFRS standards, revenue calculation includes the difference between the value contractually attributed to the pre-owned boats traded in and their relative fair value.

Backlog holding robust with exceptional visibility

Backlog just below €1.4b as of end of June 2024, consolidating previous years' record

- €323m Order Intake in H1 2024 leads to a **stable Order Backlog consolidating previous years' record level**
- Order collection affected by **temporary lag from trend discontinuity** due to shift to **direct distribution** in APAC and key Mediterranean hubs
- Lengthy **waiting list/delivery times for superyachts**, given the backlog still at record levels, representing a temporary **resistance to grow superyacht order intake further**

Backlog is calculated as the sum of the value of all orders and sales contracts signed with customers or brand representatives relating to yachts for delivery or delivered in the current year or for delivery in subsequent years. For each year, the value of the orders and contracts included in the backlog refers to the relative share of the residual value from 1 January of the current year until the delivery date. Backlog relating to yachts delivered during the year is conventionally cleared on 31 December.

Backlog broadly backed by final clients

88% sold to final clients, with sold deliveries up to 2028

Backlog by division /

Timing of
scheduled
deliveries

Visibility on future growth remains elevated

Order Intake still in a normalization phase, yet supporting an above-average backlog

Not substantially affected by higher demand cyclicality below 30mt

30 June backlog historical evolution / (€m)

H1 Order Intake historical evolution / (€m)

Backlog is calculated as the sum of the value of all orders and sales contracts signed with customers or brand representatives relating to yachts for delivery or delivered in the current year or for delivery in subsequent years. For each year, the value of the orders and contracts included in the backlog refers to the relative share of the residual value from 1 January of the current year until the delivery date. Backlog relating to yachts delivered during the year is conventionally cleared on 31 December

Net Backlog of €950m, more than 1x full-year revenues

Net Backlog comparison (€m)

- 30 JUNE Net Backlog
- 31 DECEMBER Net Backlog

Backlog is calculated as the sum of the value of all orders and sales contracts signed with customers or brand representatives relating to yachts for delivery or delivered in the current year or for delivery in subsequent years. For each year, the value of the orders and contracts included in the backlog refers to the relative share of the residual value from 1 January of the current year until the delivery date. Backlog relating to yachts delivered during the year is conventionally cleared on 31 December.

Mid-term margin expansion target – on track

+50 bps EBITDA Margin, +40 bps Net Profit margin

- EBITDA Margin expanding further 50 bps, given the ability to keep selling and executing successful projects
- Margin expansion well-translated through the bottom line at net profit level given efficient capital allocation and treasury management
- Price-Mix dynamics and operational efficiency as main factors behind margin expansion; limited contribution from operating leverage
- MID-TERM MARGIN EXPANSION TARGET – ON TRACK

Mostly expansionary capex to sustain business development

Organic Net Capex at ca. €20.5m, of which €18.2m expansionary

- Overall net investments at €33.1m, of which €20.5m Organic Capex and €12.6m from Simpson Marine Group acquisition
- Approx. 90% of Organic Capex are expansionary:
 - €10.7m for new industrial capacity
 - Approx. €4m related to extension of La Spezia concession until 2060
 - Approx. €1m related to new Cannes offices for Sanlorenzo Côte d’Azur
 - Various investments with particular focus on Pisa, Massa and La Spezia shipyards
 - Approx. €7.5m for new product development

Organic Net Capex - YoY comparison / (€m and % of the total for the period)

NFP ex M&A broadly stable after >€34m dividend payout

M&A and Working Capital re-absorption driving temporary net cash reduction in H1

- **Net Working Capital (“NWC”)** substantially neutral at the end of H1 as a consequence of **normal industry seasonality**:
 - Intense yacht fitting activity only partially offset by deliveries in June
 - Normalising Order Intake in H1, thus lower compensating effect from advance payments on new contracts
- EUR 23.9m impact in H1 from Simpson Marine Group acquisition, in terms of equity consideration and pre-closing dividend distribution
- €102.2m Net Cash Position as of 30 June, providing optionality value
